EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Whipps on December 7, 2004.

The application has been amended as follows:

Delete claim 1 and insert new claim 1 as follows:

1. A method for washing fabrics comprising contacting a fabric with a cleaning composition comprising:

- a. water; and
- b. 50 to 500 ppm of a compound of formula (I):

wherein;

X^- is an anion;

R , R_1 and R_2 are independently selected from (C_1-C_4) alkyl, or (C_1-C_4) alkoxy;

R_3 is a polyoxyalkylene chain of formula:

wherein, n is 35-45.

cancel claims 3, 4, and 13-20

2. The following is an examiner's statement of reasons for allowance: Applicants have claimed a method for washing fabrics as set forth above. Propoxylated quaternary ammonium salts are known in the art per se (see cited prior art). The closest prior art of Wixon, US 4,230,590 broadly teaches ethoxylated or propoxylated quats as suitable antistats of their invention (see col. 10, lines 5-25). The definition of these quats, however, is considerably broader than the specific compound, with its narrow range of propoxy groups, as that presently claimed. It would not have been obvious to one of ordinary skill in the art to select the specific compound of the present claims based on the broad teachings of the prior art. Accordingly, the present claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
